Skypiom Compliance
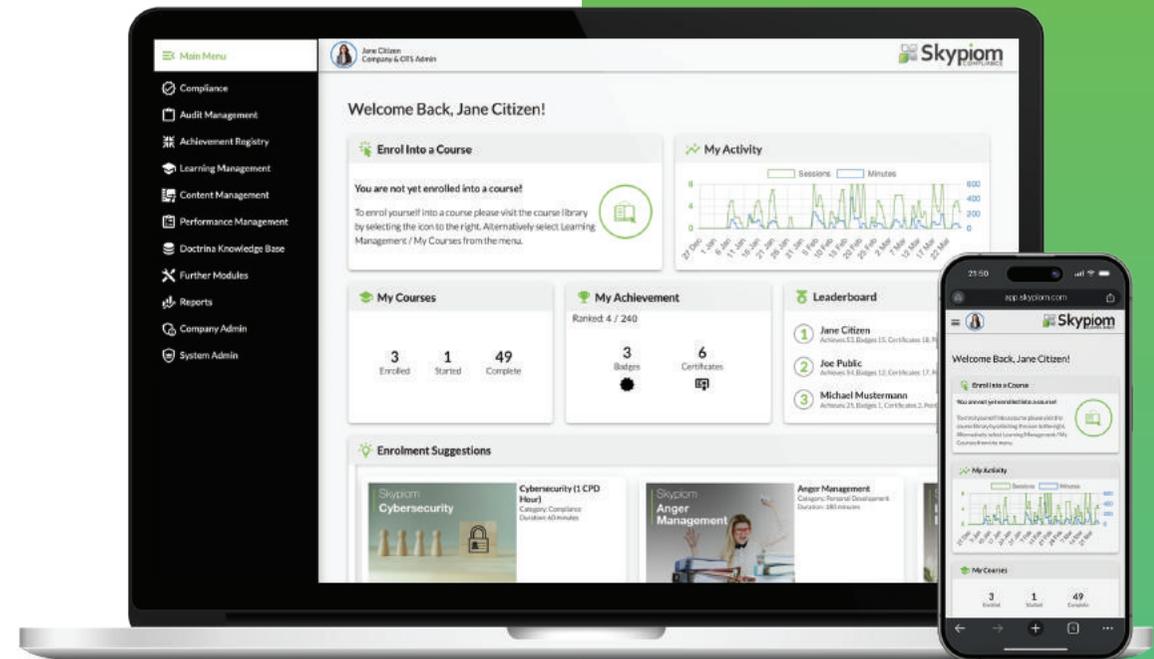

Surpassing the Limits of Legacy LMSs

Uniting automated training, compliance tracking and custom reporting.

Turning perceived risks into an asset.

Skypiom is an AI-Driven & Automated Learning Management System (LMS) built for companies ready to move beyond generic LMS Platforms.

- ✓ Replaces manual processes
- ✓ Automates learning & development
- ✓ Streamlines compliance & competency tracking
- ✓ Manages workflows & alerts
- ✓ Enables real-time monitoring
- ✓ Advanced & customisable reporting

Contractor-Ready by Design

Employees and external users – including contractors and clients – can benefit from a powerful LMS with flexible, cost-effective pricing.
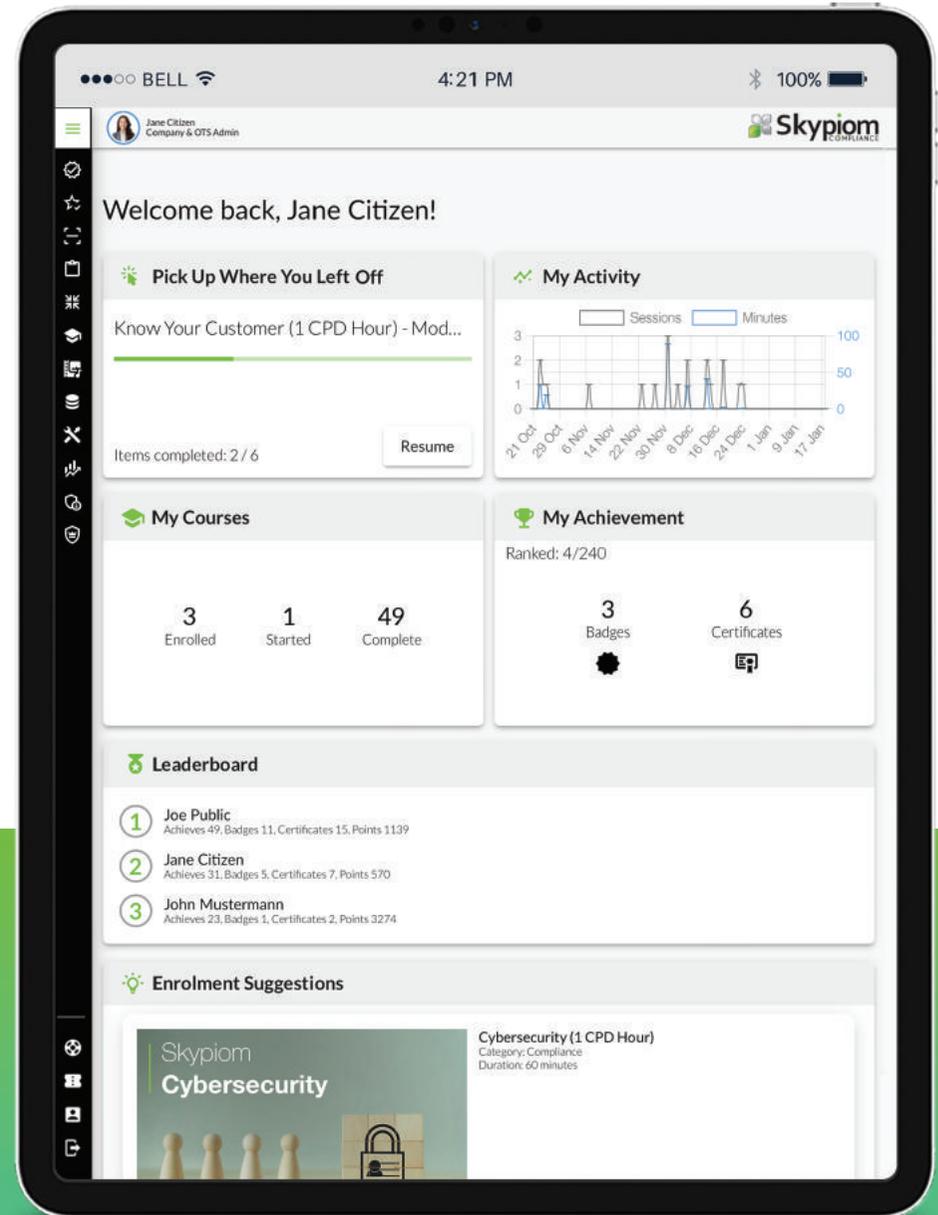

Bridging the LMS & Compliance-Tracking Gap.

Skypiom delivers the features modern organisations need to streamline training across all user types, stay compliant and reduce manual effort.

The system brings together everything required for a sustainable culture of learning & compliance.
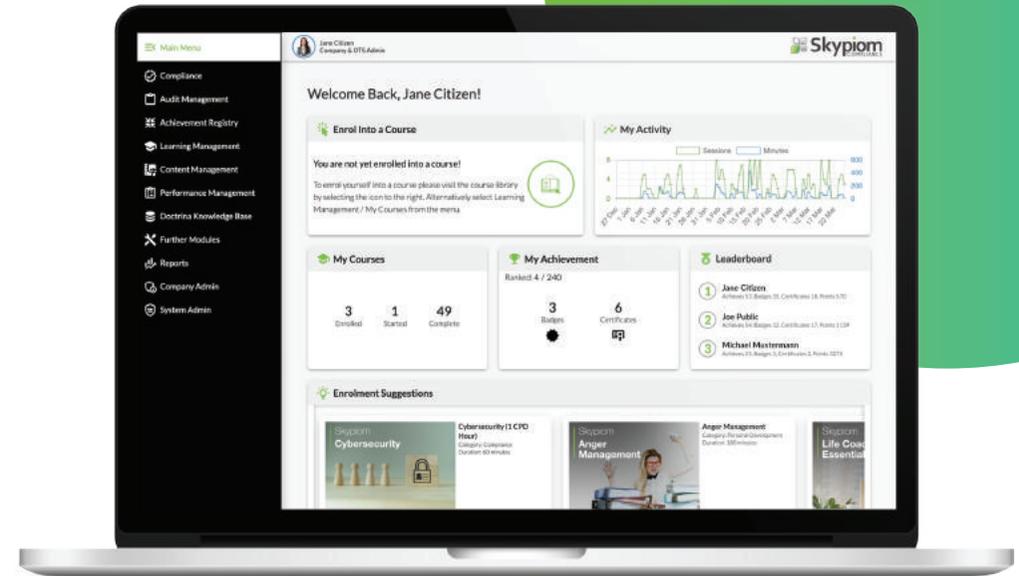

- ⊘ Feature-rich LMS tools
- ⊘ Various AI touchpoints, including assessment generation & proctoring
- ⊘ Custom & standard reporting
- ⊘ Real-time notifications and alerts
- ⊘ Auditing suite
- ⊘ Knowledge base

- ⊘ Versatile assessment suite
- ⊘ Automated compliance tracking
- ⊘ Consolidated achievements register for all learning & compliance activities
- ⊘ Performance management
- ⊘ Mandatory notices tracking
- ⊘ Gamification touchpoints

Smart LMS. Bold Features.

Skypiom's LMS is designed to automate, simplify and scale learning operations – enabling organisations to train with precision, monitor confidently and report with ease.

- ⊘ Compatible with various content formats, including SCORM, xAPI / TinCan, CMI5, PDF (static & interactive), MP4 / MP3, YouTube, Vimeo & ThingLink.

- ⊘ Comprehensive assessment suite that includes multiple-choice, free text & observational assessing.

- ⊘ AI-supported: automatic assessment generation, user verification (proctoring) and video conferencing.

- ⊘ Host your own content while also leveraging Skypiom's FREE ±160 CPD accredited and soft skills courses.

- ⊘ Various value-added capabilities, such as, career pathing, microlearning & skills gap analysis.

Number of course items	8
Course items not started	4
Total Assessments	6
Incomplete Assessments	5
Course expiration date	2023-03-30

Automated Compliance Tracking Made Easy.

Monitor training and competencies in real time. Smart reminders reduce admin, improve audits and keep your team trained and compliant.

- ⊘ Define and manage compliance requirements for employees, contractors as well as objects like serviceable items or contracts.

- ⊘ Track diverse items such as courses on Skypiom's LMS, external courses, audits, performance reviews, CPD points – and more!

- ⊘ Set customisable and automated alert parameters, notifying users before a Compliance Item or Role expires.

- ⊘ Centralise all learning and compliance records, including importing of historical LMS data.

Reporting Done Right.

Skypiom sets a new benchmark with its powerful combination of standard and custom reporting capabilities.

- ✅ Standard reports: access ±30 reports, including training completion, compliance status, user engagement and more.

- ✅ Custom reports: close any remaining reporting gaps with reports that may include tailored layouts and data pulled from external systems – no limitations!

- ✅ Real-time default outputs: download executive and detailed reports in PDF or CSV format on demand.

- ✅ Scheduled or on-demand: reports can be scheduled or generated when required, with wide variable selection.

Custom reports are fully aligned with ATR, BBBEE and Prudential Authority regulatory submission requirements.
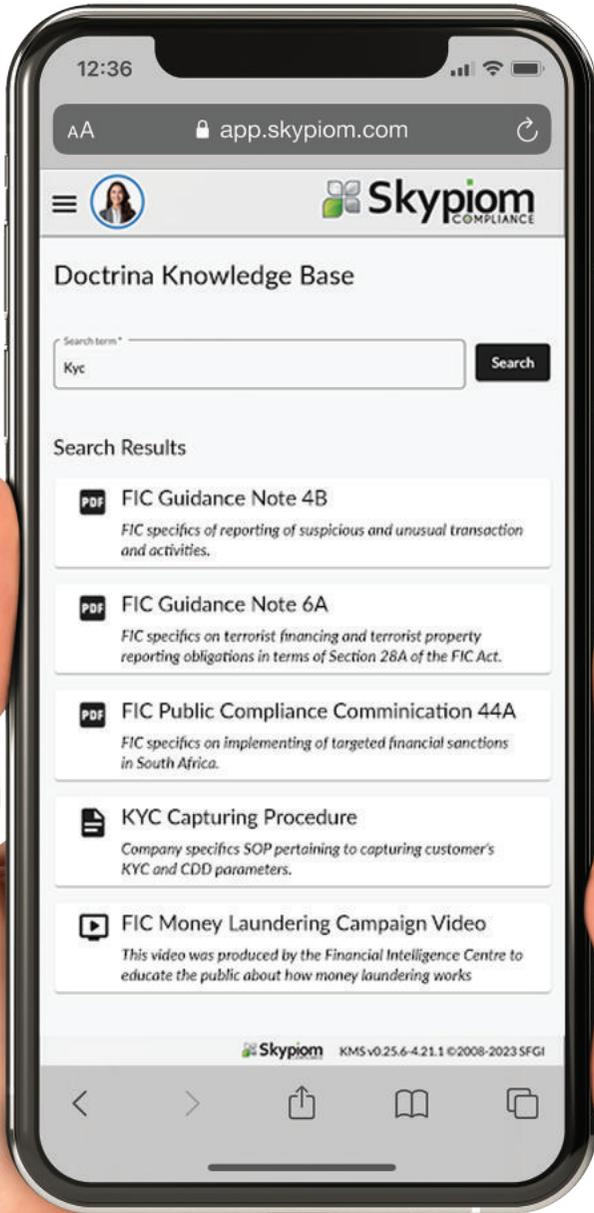

Train. Track. Govern. Repeat.

Skypiom unifies compliance, performance & institutional knowledge into a single, intelligent learning ecosystem.

Performance Management: monitor and optimise productivity with smart performance tools.

Auditing: ensure compliance with automated audit trails, documentation and risk tools.

Mandatory Notices: automate disclosures, policy sign-offs and legal updates with full tracking.

Knowledge Base: centralise SOPs, training and expertise in a searchable, on-demand hub.

Support That Goes Beyond Tickets.

Expert guidance, hands-on help and responsive service – every step of the way.

- ✅ **Dedicated Account Support:** personalised and live assistance from onboarding to optimisation.

- ✅ **Rapid Response Times:** get the help you need without long delays or escalation layers.

- ✅ **Platform Training Included:** enable your team with expert-led, system-specific training.

- ✅ **Flexible Support Tiers:** from included standard to premium and pro-level support.

Ronin

"Easy to use, 100% cloud-based and support is phenomenal!"

Kim Atkinson
Climate Fund Managers

"The support team is prompt, knowledgeable and demonstrates a deep understanding."

Coltrane Rathokoa
Chamberlain

"Simple and interactive – easy even for staff without computer experience."

Integration Made Easy.

Seamless System Integration

While integration is not required, Skypiom can integrate with existing HR, CRM and ERP systems.
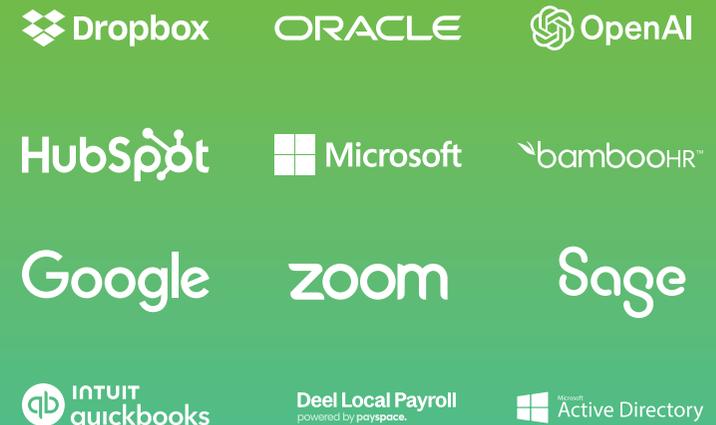

+80 Endpoints

Skypiom's powerful API suite gives developers complete access to every corner of the platform.

Effortless Integration with the Tools You Already Use

Skypiom seamlessly integrates with a wide range of third-party platforms to enhance productivity and streamline workflows. All integrations are designed to fit into existing ecosystems with minimal effort and maximum impact.

- ⊘ API-Driven Communication
- ⊘ Single Sign-On (SSO)
- ⊘ Data Syncing
- ⊘ Customisable Webhooks
- ⊘ Staging Server Access
- ⊘ Report Development Kit (RDK)
